

# Why wait for the care you need now?

**Skip the trip to the ER.** With Teladoc, you can connect with a doctor in minutes, not hours or days like the ER, urgent care, or the doctor's office. Plus, you can get the care from anywhere: home, office or on the road!

## TELADOC

- Request an appointment straight from your phone or computer, 24/7
- A physician calls you back in minutes
- Get the care you need at a price you can afford

## ER OR URGENT CARE

- Drive to the nearest office while sick
- Wait hours before seeing the doctor
- Pay high ER and urgent care fees

Talk to a doctor anytime, without leaving the house.
